 Merchants Metals®
the first name in fence solutions

Guardsman combines the traditional style and flexibility of riveted construction with modern technology to provide long-lasting beauty and security in a high-quality ornamental steel fence system.

Every Guardsman section is factory assembled by highly trained craftsmen. The process begins

with pre-galvanized steel, which creates a powerful layer of protective coating. The pickets and rails are then connected with high-quality aluminum rivets, giving the fence

additional strength and the flexibility to move up and down along the terrain.

Merchants Metals' state-of-the-art powder coating line produces a superior coating and the finish carries a 15 year limited warranty.

Its classic design, high quality construction and variety of heights and styles make Guardsman the architect's choice in ornamental steel fencing.

STAFFORD 3 RAIL FENCE STYLE WITH RINGS

Advanced powder coating adds a beautiful finish which also protects against the elements

Patented High-Security Bracket

Galvanized 11 gauge steel channel adds strength and durability

Each aluminum rivet has 1,500 lbs. of shear strength and 1,100 lbs. of holding power

Fifteen Year Limited Warranty

Variety of Heights and Styles

**Commercial and
Industrial Applications**

Advanced powder coating process

Merchants Metals leads the industry with an advanced powder coating process that incorporates a five-stage cleaning process for an added boost in protection power. This removes any impurities that could potentially mar the finish. Combined with a corrosion-resistant epoxy powder primer and polyester powder top coat, this ensures that each Guardsman fencing system will be

highly resistant to the effects of the outdoor elements.

All Guardsman Fence Systems are assembled and riveted at the Merchants Metals factory to minimize your installation time and ensure long-term structural integrity. After powder coating, the fence panels and posts are shipped in carefully packaged pallets for economical and damage-free transit.

SPECIFICATIONS

	Guardsman Commercial	Guardsman Industrial
Picket Size	¾ inch square 18 and 16 gauge	1 inch square 18, 16 and 14 gauge
Rail Size	1 ½ inch X 1 ⅝ inch X 11 gauge U-Channel	1 ½ inch X 1 ⅝ inch X 11 gauge U-Channel
Panel Length	90 ¼ inch	90 ¼ inch
Number of Pickets	19	18

Versatile Swivel Bracket

The Guardsman's swivel bracket can increase the fence's racking capabilities and make it easy to follow the course of a landscape. Each spacer changes the angle by 7½ degrees and adds ⅜ inch distance between posts. The bracket's tamper-proof construction also adds to the fence's security.

Guardsman fencing and gates are available with or without decorative rings.

Curved top pickets provide a formidable defense against intrusion and add architectural interest to any application.

Additional Fence Solutions

Merchants Metals is one of the largest manufacturers and distributors of fence systems in the nation. The company's complete line of fencing solutions for residential, commercial and industrial applications includes:

- Hot Dipped Galvanized Chain Link
- Color Coated Chain Link
- Steel Ornamental in Both Component and Fully-Welded Systems
- Aluminum Ornamental Systems
