 Merchants Metals®
the first name in fence solutions

For the value-conscious consumer, Secure-Weld is an ideal choice that combines the ruggedness and security of steel with the unsurpassed beauty and durability of Merchants Metals' superior TGIC Polyester Powder Coating. Available in a variety of heights and styles. Secure-Weld offers classic good looks at an affordable price.

Advanced Powder Coating Process

Merchants Metals leads the industry with an advanced powder coating process that incorporates a five-stage cleaning process for an added boost in protection power. This removes any impurities that could potentially mar the finish. Combined with a corrosion-resistant epoxy powder primer and polyester powder top coat, this ensures that each Secure-Weld fencing system will be highly resistant to the effects of the outdoor elements.

All Secure-Weld Fence Systems are assembled and welded at the Merchants Metals factory to minimize your installation time and ensure long-term structural integrity. After powder coating, the fence components are shipped on carefully packaged pallets for economical and damage-free transit.

Sentry

An all-purpose design, it is popular for a variety of residential and commercial applications. Straight and elegant lines blend well with most architectural styles.

Western

A clean and simple design that provides a very efficient barrier, yet maintains high visibility and classic lines. It is well suited to commercial and pool applications.

Vista

A classic design with universal appeal. The square top pickets can be left open or fitted with finials for a more decorative design.

Curved Top Sentry

A high security design which creates an imposing presence with a sense of style.

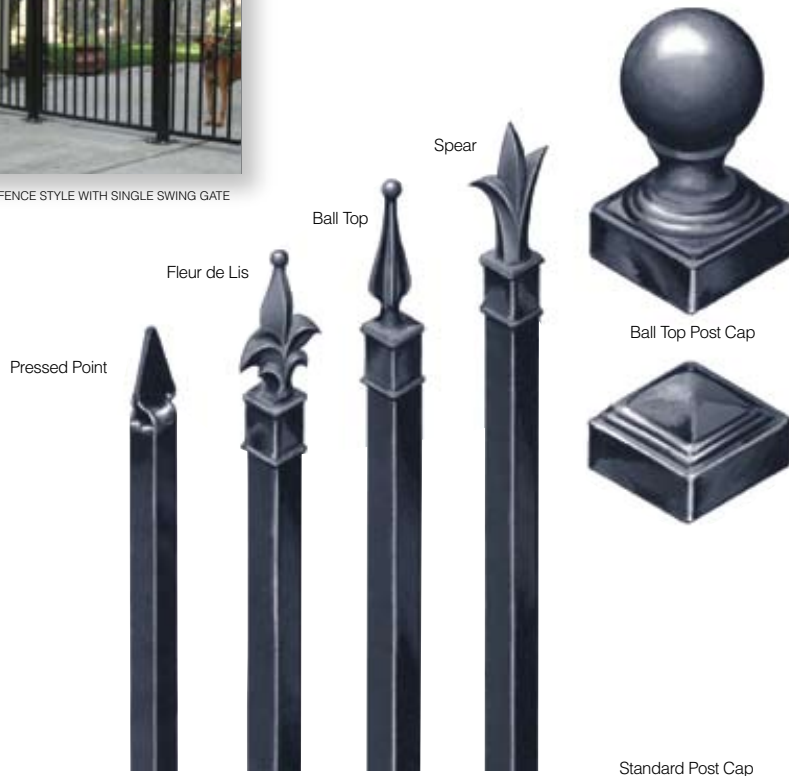

Gates and Accessories

A large selection of gates, posts and accessories are available to coordinate with your Secure-Weld fencing solution. All are intricately fashioned by skilled craftsmen and then completed at the Merchants Metals factory with the same high-quality powder coat finishing.

These beautiful and durable ornamental accessories add architectural interest to your residential, commercial or industrial property.
